Portfolio Project

Daniel Ade

PURPOSE

Create a means for potential employers or clients to contact me

Stay connected through social media with potential clients or colleagues

Exhibit a work history and background which also accentuates my strengths, skills and personality

Create a site where I can blog

SITE MAP

Four Main Pages:

    Home Page

   Bio Page

    Blog Page (links to 5 blog posts)

    Etc (Interests) page

Style:

   CSS via SCSS

SITE MAP

Navigating between pages:

    Hamburger icon (All pages)

    Direct Links (on Home Page)

    Footer (link to Home page)

Wireframing & Planning Aesthetics

Initial Goals:
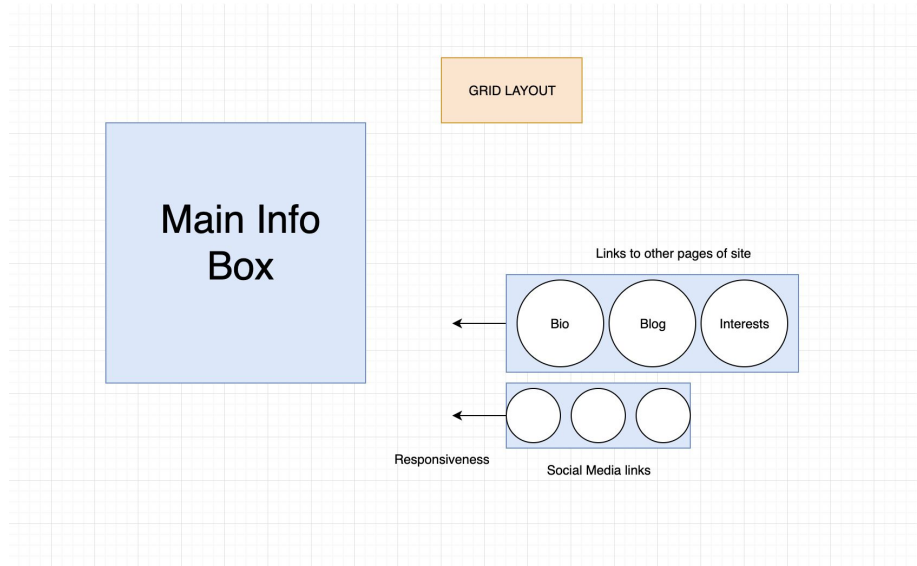

Simple yet sleek

Contiguous theme (dark/city shades)

Clear links and layout

Room to add to later on (with javascript, etc)
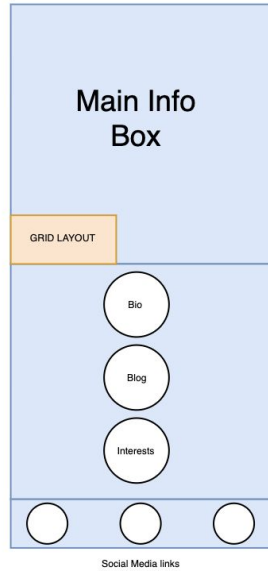

Responsiveness (utilizing grid)

Wireframing - Main page

GRID LAYOUT

Main Info Box

Links to other pages of site

Bio   Blog   Interests

Responsiveness

Social Media links

Desktop layout (>1201px)

Tablet Layout (851-1200px)

GRID LAYOUT

Main Info Box

BIO

BLOG

INTERESTS

Links to other pages of site

Social Media links

Wireframing/Aesthetics - Main page

Phone/Tablet (<850px)

Final

Wireframing Bio page

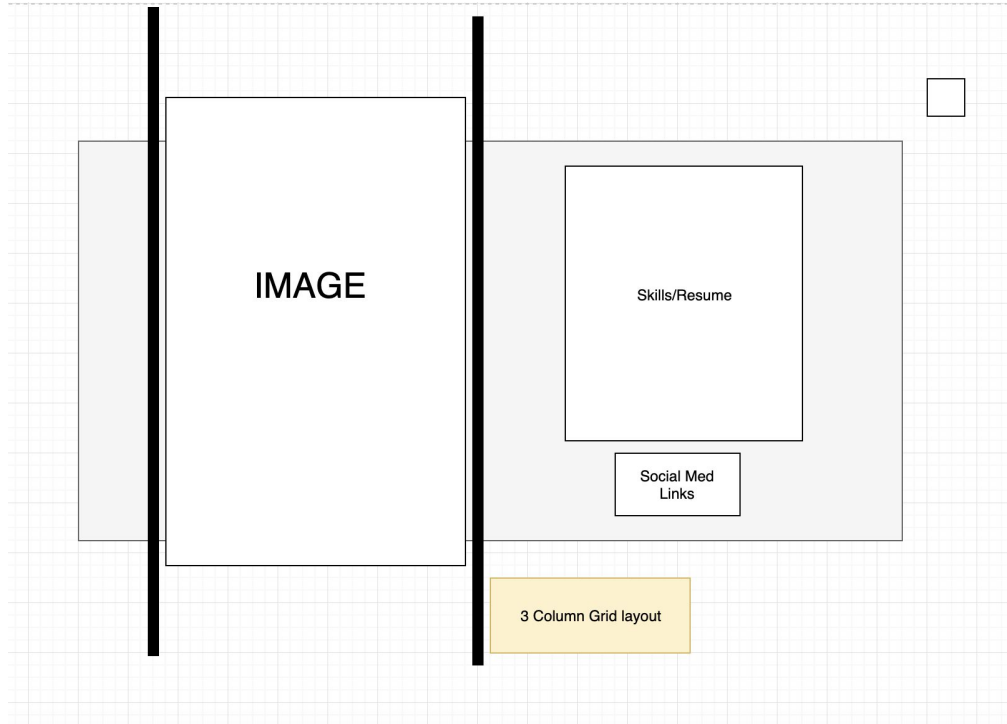

IMAGE

Skills/Resume

Social Med Links

3 Column Grid layout

3 Column Grid Design
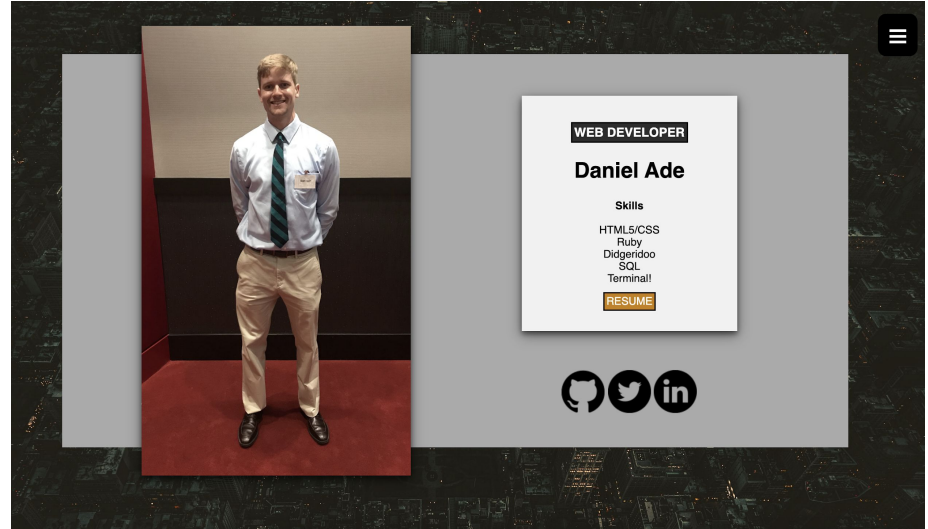

Image column static

Skills column flexible

Wireframing/Aesthetics Bio page

Final
(Desktop)

Responsiveness
<950px

# Wireframing "ETC" page

Info boxes on interests

Boxes that translate on hover and reveal content

Aesthetics "ETC" page

Grid-column-gap disappears for responsiveness

Wireframing Blog page

Main blog site with samples of blogs linking to blog articles

Margins decrease to create responsiveness <700px

Aesthetics Blog page

Links highlight and scale
